

I urge the FCC to reject the NAB's petition 04-160. I am a listener to XM Satellite radio and find their instant traffic and weather useful, not only to for my metropolitan area (Washington DC), but listening to traffic and weather in other cities where my child and friends live. XM Radio's weather and traffic for cities is a truly national service and in no way violates the terms of the satellite license. Please reject the NAB's petition 04-160.
